**SUSTAINABILITY
REPORT**

LOGO tape group

TO OUR STAKEHOLDERS,

We are delighted to present the first Sustainability Report from the LOGO tape group, which details our social and environmental impact for the year 2021; as well as our sustainability plan, in numbers and facts. The content described here covers all interests, starting with those related to the production and consumption of plastics, allowing a comprehensive understanding of our contribution to solving global sustainability challenges. This report is intended to serve as a reliable source of information.

For many years our company approach has been to prioritise sustainability and measure success by our ecological and social impact. We strive to continuously improve both indicators of success. To achieve this, we have made sustainability a key element of our new business strategy. This includes not only the responsible use of natural resources, but also the regular incorporation of environmentally friendly methods into our production and processes. We always prioritise the future needs of our customers, by providing innovative solutions, that improve their operations and products. The LOGO tape group has always focused on

providing helpful, customised solutions based on the demands of our customers. Hence the importance of innovation and providing sustainable packaging to our clients, with a focus on the three R's: Reduction, reuse, and recycling of the raw materials that constitute the product.

Simultaneously, we are stepping up our efforts to safeguard the climate and ecology via decreasing our company ecological footprint and actively contributing to the addressing of global issues such as resource shortages, climate change, and waste creation.

2020 marked a significant milestone for the LOGO tape group in its efforts to become a greener company - through the launch of the LOGO tape GREEN SERIES, the sustainable assortment of our portfolio.

Despite the challenges presented by the spread of the Covid-19 pandemic and thanks to the commitment of our employees, 2021 was a positive, transformative and significant year for the LOGO tape group. Our production saw no decrease in activity, ensuring continuity of supplies for our customers and enabled us to constantly invest in sustainable innovation, developing new solutions capable of anticipating future market needs. On behalf of the Management Board, we would like to take this opportunity to express our gratitude for your efforts.

Some of the decisions we make as a business have a worldwide influence. Therefore, it is important to align our company actions with comprehensive, sustainable guidelines. At the LOGO tape group we are particularly committed to the sustainable goals for Sustainable Development from the United Nations in its 2030 Agenda.

In addition to meeting existing regulatory standards, we look forward to publishing an annual Sustainability Report to review the LOGO tape

groups position and how it intends to improve focused initiatives and comprehensive reporting. We will use this great outcome as a basis of motivation to continue our efforts and implement focused steps to improve our performance in this critical area. Sustainability is and will continue to be an important, future-oriented focus for the LOGO tape group, influencing all of our decisions and actions.

The LOGO tape group is pleased to have been awarded the Ecovadis silver medal - a sustainability rating in this initial rating is higher than the industry norm.

In our most recent sustainability report, you can see how far we have come. We hope you find it enjoyable to read.

Sincerely

Dr. Ulrich Wesselmann
and Leander Messerschmidt Lühr

CEO & Managing Director

ABOUT THIS REPORT

This report is a representative sample of the current projects that are being implemented by the LOGO tape group.

Herewith we inform our stakeholders and the general public about our global commitment; as well as the environmental, economic and social effect of our business activities for the year 2021. The essential topics relevant for this, are: The prevention of anticompetitive practices, occupational safety, climate protection, CO2 emissions, human rights in the supply chain and product safety. The next pages of our sustainability report are organised into important concerns for the organisation and its stakeholders, as it summarises our management approach, key measures, results, and key figures in five fields:

COMPLIANCE

Defined as our ability to implement rules and processes that ensure an ethical business conduct, respect for human rights and environmental stewardship across the supply chain.

EMPLOYEES

Defined as the set of actions made to safeguard our employees' health and safety in the workplace, whilst also encouraging their well-being and professional development.

ENVIRONMENT

Defined not just by the production equipment, but also by a set of practices, aimed at reducing pressure on natural re-

sources, that allay climate change effects through special initiatives.

PRODUCT RESPONSIBILITY

Defined as a series of actions and initiatives providing high-value packaging to our clients, considering not just the social effect the product could have, but also the environmental impact caused throughout the product life cycle.

SOCIAL COMMITMENT AND INVOLVEMENT

Defined as the set of initiatives made to protect and invest in the wellbeing of our community.

ABOUT US
WHO WE ARE

OUR HISTORY

What began as a management buyout from tesa AG, is now a group of companies working nationally and internationally for numerous customers.

The LOGO tape group is managed by Dr. Ulrich Wesselmann as the CEO and Leander Messerschmidt-Lühr as the Managing Director. In the course of its 24-year history, this group has been creating individual solutions in the field of multi-layer films, printed adhesive technology and packaging material. The Company operates across three production sites in Germany, one in Poland and one in Lithuania. The main industries the LOGO tape group serves are: Industrial, food & beverage,

tobacco, automotive, point of purchase, healthcare, transport and logistics.

As a result of the know-how and experience acquired in the field of adhesives from tesa AG, LOGO tape was born in the 1990s as a manufacturer of printed adhesive tapes. In 1998, the opportunity arose for Dr. Ulrich Wesselmann, to make a management buy-out of the tesa plant in Harsislee, Germany, making from this opportunity a successful partnership between LOGO tape and tesa. In fact, this is still part of LOGO tape groups strength today; which production takes place in-house and its best products are exported from Germa

ny to the rest of the world.

Last year, the LOGO tape group achieved a nominal turnover of €38 million. As for our corporate profitability, the operating result of the EBITDA resulted in €2,4 million.

THE LOGO tape group

The LOGO tape group is comprised by the following companies:

- **LOGO tape Vertrieb GmbH** | Headquarters At the LOGO tape plant in northern Germany, the company produces and prints self-adhesive tape and carry handles.
- **MULTIFLEX folien GmbH & Co. KG** | At the production centre in Flensburg, Germany; the company produces and develops multi-layer, co-extruded barrier films of the highest quality for the food & beverage and automotive industries.
- **Scharnau City Shop GmbH** | Supplier for special tapes in Kreuzberg, Berlin.
- **mapack Packmittel GmbH** | At the production centre in Mannheim, Germany; the company produces and prints packaging tape and water activated tape (WAT).
- **fl:pack GmbH** | Supplier for packaging materials in northern Germany
- **LOGO tape Ltd** | West Midlands, England
- **UAB Logo tape Baltic** | Kaunas, Lithuania
- **LOGO tape SP.z.o.o** | Pawlowko, Poland
- **Logo tape Ges.m.b.H** | Vienna, Austria
- **Logo tape S.a.r.l.** | Illkirch, France

COMPANY CULTURE

OUR VISION

Our vision is to make our customers' lives easier through customised solutions. Further technical developments and increasing customer requirements characterises our markets. We accept this challenge and, with our experience and expertise, always strive to offer our customers the best possible offer. We see ourselves as pioneers and lateral thinkers, and by conviction we are breaking new ground to develop optimal solutions. In order to build upon our competitive advantages, we focus on our values:

OUR VALUES

INTEGRITY

Ethical and responsible behaviour is the foundation of our corporate culture. Our integrity only allows business operations and actions that are consistent with our values, which our partner companies such as tesa®, IPG and 3M have been benefiting from for a long time. The LOGO tape group is a company that you can trust.

QUALITY

Whether established or new products - the LOGO tape group is known for high-quality products that deliver what they promise. Consistent corporation-wide quality management enables the development, processing and handling of our products to the highest of standards.

OUR MISSION STATEMENT

To create innovative, customised adhesive solutions that improve the day-to-day for our customers in the various aspects of life.

FLEXIBILITY

As a decentralised group of companies, we can implement the requirements of our customers and partners, and react flexibly to demanding and special requests. We always find the right solution for every challenge.

LOGO tape group

INNOVATION

Our innovations are based on sound scientific know-how that has been developed across companies.

With our innovative solutions we respond to the global challenges of the adhesive and packaging industries. The know-how and skills of our employees is our most valuable resource. We invest continuously in R&D projects focusing on innovative solutions that create added value for our customers and society.

PARTNERSHIP SOLUTIONS

Cooperatively and on equal terms, we grow in tasks and challenges. We cultivate all our business relationships as long-term partnerships based on fairness, trust and reliability. Identifying, understanding and fulfilling the needs and expectations of our customers is what determines our actions.

ENVIRONMENT

As a specialised company in the production of co-extruded multi-layer films and the self adhesive tape industry, the LOGO tape groups mission is not only based on the manufacturing of innovative product solutions, but is also committed to meeting strict quality requirements by taking responsibility for our environment and therefore, our people.

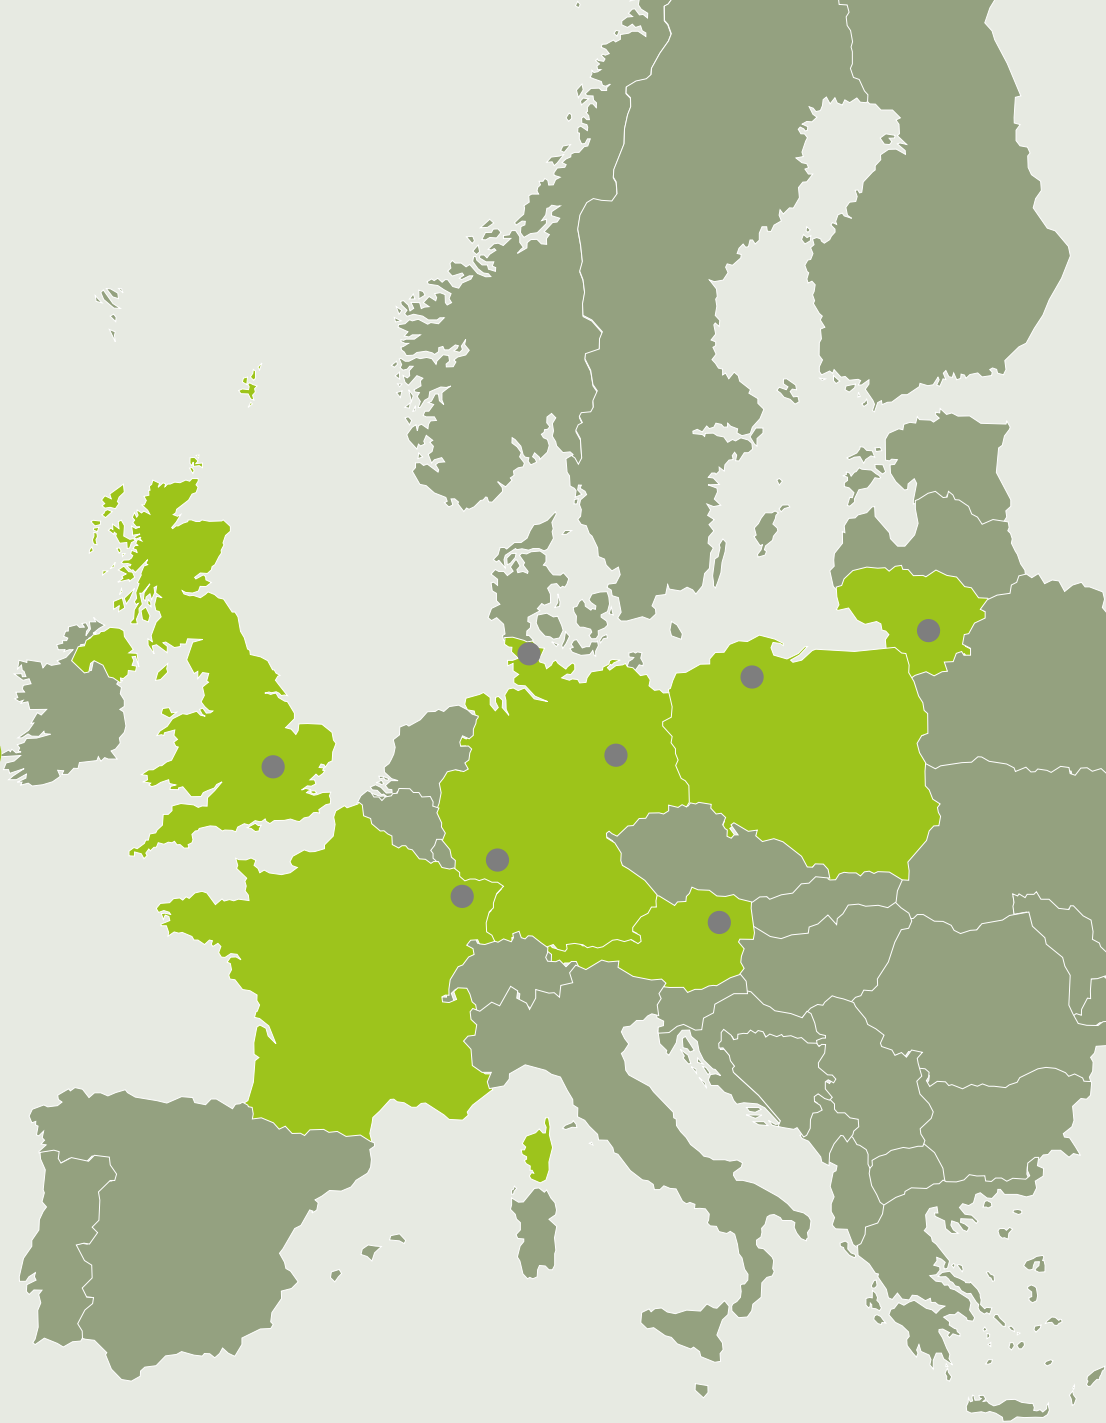

COMPANY PROFILE

The LOGO tape product sites and sales offices are located all over Europe:

- Logo tape Ltd | West Midlands, England 
- UAB Logo tape Baltic | Kaunas, Lithuania  
- LOGO tape Vertrieb GmbH | Harrislee, Germany  
- MULTIFLEX Folien GmbH & Co. KG | Flensburg, Germany  
- fl:pack GmbH | Harrislee, Germany 
- Scharnau City Shop GmbH | Kreuzberg, Germany 
- Mapack Packmittel GmbH | Mannheim, Germany  
- LOGO tape SP.z.o.o | Pawlowko, Poland  
- Logo tape Ges.m.b.H | Vienna, Austria 
- Logo tape S.a.r.l. | Illkirch, France 

OUR LOCATIONS

OUR BUSINESS MODEL

The LOGO tape group is a European-company with a focus on the European market.

Our brand philosophy pillars are reliable quality, outstanding service, a high innovation capacity, and the application of top technology. Through the lucrative selling of meaningful and sustainable solutions, we aim to increase the value of the LOGO tape group in the interests of our workforce customers, and shareholders.

OUR VALUE PROPOSITION

Is the capacity of creating innovative, sustainable and customized solutions for our customers.

OUR STRATEGY

We aim to provide innovative and sustainable solutions in the adhesive technology field that evolve with consumer needs.

OUR VALUE CREATION MODEL

Our long-term wealth creation strategy is built on a balanced approach to sustainable innovation, as well as increased capital efficiency. We add value to our company by doing the following:

- Continuous innovation
- Research and Development activities
- Enhancing operational effectiveness.

CODE OF CONDUCT

As our company continues to expand globally, it is essential to implement and comply with the rules of conduct on a global scale.

The LOGO tape group works in the highest regard for the ethical ideals it advocates and it communicates these values to all employees and those who engage with it. In addition to its communication and distribution, the firm expects all collaborators, administrators, workers, and third parties to respect the rules outlined in its Code of Conduct, which serves as the primary source of information on workplace standards.

By implementing a compliance-specific framework, rules are clearly and transparently defined. To fulfil our responsibilities, and address the following three core topics implemented into formal policies and measures.

- Prevention of anti-competitive practices
- Corruption Prevention
- Data Protection

The LOGO tape group Code of Conduct helps employees and its subsidiaries adhere to our key principles and values in our day-to-day operations, tailoring their behaviour towards them, and therefore sharing them with others.

We see the definition and implementation of our Code of Conduct as part of our socially and ecologically responsible corporate governance and as an opportunity for us to support the sustainable development of society in the long term. Therefore, it is important to continually improve the implementation of the standards set out here in our daily work.

The LOGO tape group Code of Conduct is given to new workers on their first day of work. Being part of the LOGO tape group necessitates adherence to the Code of Con-

duct as well as all governance and compliance to its rules.

Our Code of Conduct sets out the minimum standards that all companies of the LOGO tape group recognise, actively driving the compliance of all suppliers and other partners of the LOGO tape group. It is expected that all activities comply with national laws, rules and regulations. This applies to the employees of the LOGO tape group as well as to all suppliers and their subcontractors.

COMPLIANCE

The Code of Conduct of the LOGO tape group is based on the following generally accepted guidelines:

- The United Nations Universal Declaration of Human Rights
- The United Nations Global Compact
- ILO Declaration on Fundamental Principles and Rights at Work
- RIO Declaration on Environment and Development
- United Nations Convention against Corruption

COMPLIANCE MANAGEMENT SYSTEM

Through our compliance management system, we want to guarantee that all our employees and institutions comply with the applicable legal regulati-

ons and internal norms in their daily work. To achieve this, we adopted a systematic management strategy.

The LOGO tape group Compliance Management System is constantly being revised and updated. We assessed our compliance requirements for practicality and acceptability along the process and made any required adjustments.

- Prevention of Anticompetitive Practices: In our business model, we constantly study and evaluate potential compliance issues that could lead to anticompetitive practices.
- Corruption Prevention: which purpose is to prevent probable incidents of corruption from occurring in the first place.
- Data protection: one of our most important priorities is the discreet, honest, safe, and appropriate processing of personal information entrusted to us.

AUDITS

Our Quality Management Department is responsible for performing audits, which include an examination of compliance-related matters. In order to improve the audit themes in the field of compliance they are annually reviewed.

ETHICAL PRINCIPLES

The code of conduct is binding for all LOGO tape group employees.

All business partners of the LOGO tape group are required to comply with these principles. The following principles should be considered for the assessment of potential and existing business partners.

LOYALTY

Loyalty means mutual trust. We pursue a lot of common mains with our customers, guests, employees, companions and suppliers. This happens on the basis of mutual trust. Trust promotes fair and loyal relationships between the interested groups; this loyalty is one of the foundations of our enterprise and lines of business.

CORRUPTION AND UNFAIR COMPETITION

In our worldwide business activities, we condemn all methods which are not based on trust, integrity and fairness. Corruption and an unfair competition do not contribute to a long-term harmonious partnership. All our partners are aware of these principles and are required to refrain from such unfair practises.

LEGAL OBSERVANCE

In every country in which the Logo tape Group is represented it should operate in full compliance with the laws, rules and regulations of the country in which it operates. In case of a contradiction between legally binding laws and these principles, it is to be traded according to the land-cus-

tomary law.

BASIC HUMAN RIGHTS

The LOGO tape group recognises the Universal Declaration of Human Rights. Every person who directly or indirectly works for the Logo tape Group is entitled to these basic human rights.

EQUAL TREATMENT

The setting and treatment of the employees within the LOGO tape group occurs without discrimination due to gender, race, religion, age, impediment, sexual adjustment, nationality, political disposition, membership in labour organisations incl. trade unions, social and ethnic origin or each of the other personal signs. Everybody will be treated with respect and dignity. We comply with local legislation on disciplinary practices.

FORCED LABOUR AND CHILD EMPLOYMENT

Employment is voluntary. The LOGO tape group accepts neither forced labour nor child employment and acts according to the scopes of the convention ILO No. 29, 105 and 138 and according to the laws of the respective country.

WORKING ENVIRONMENT

The necessary conditions for a safe and healthy working environment should be made available for all employees of the LOGO tape group.

OUR PEOPLE

OUR EMPLOYEES

Our people

Attracting the new generations

EMPLOYEE HEALTH & SAFETY

The safety of our employees

OUR PANDEMIC RESPONSE

OUR PEOPLE
OUR EMPLOYEES

EMPLOYEES

A highly motivated and qualified team is essential to the success of the LOGO tape group. It is the enthusiasm, commitment and competence of our people behind the excellence and quality of our products.

Safe working conditions, proactive health management, long-term employee loyalty, competitive salary with social benefits, as well as on-going training, are all part of our company strategy in the personnel field. Additionally, the company seeks to continuously attract and retain highly skilled and motivated individuals while also increasing our desirability as an employer.

As well as global concerns such as climate change, consumer needs are also rapidly changing, and the expectations on our adhesive solutions are growing. In order to meet and surpass our customers' expectations we must continue to innovate in our products and processes; which is only made possible through our dedicated personnel. This is the reason workers represent the key company cornerstone

on which the LOGO tape group constantly invest in order to make it distinctive.

ATTRACTING THE NEXT GENERATIONS

For the purpose of becoming a more appealing business to the younger generations, the company has strong connections with local institutions, providing students with numerous opportunities for workplace training. Additionally, the company partakes in regional recruitment events as part of its selection process when seeking new candidates to join the workforce.

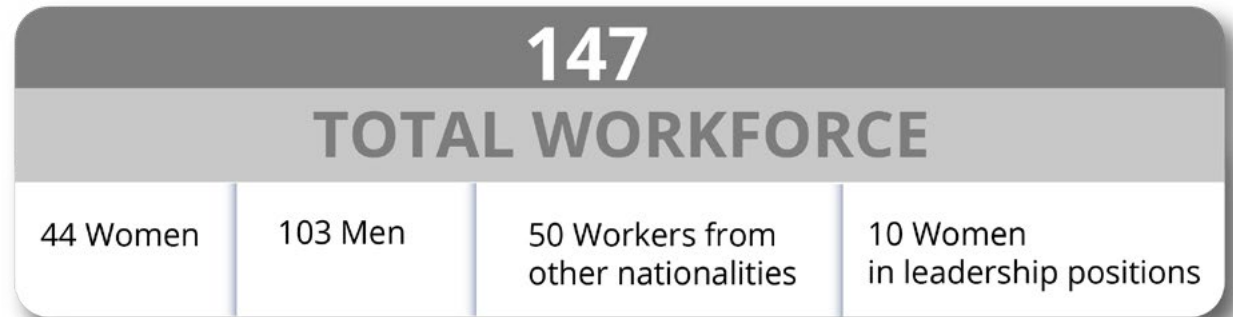

As for this, the LOGO tape group is a Erasmus + training partner, which enables its trainees to do internships in other European countries.

In the matter of this, we are proud to be an auditor at the Chamber of Industry and Commerce; enabling us to make a decisive contribution to the future of the economy in our region, thus securing a new generation of employees.

We believe it is our responsibility to safeguard our employees from risks and dangers while doing their jobs. A safe working environment is a must for motivated and engaged staff, which contributes significantly to productivity, as well as customer satisfaction. In order to be a responsible employer, we consider workplace safety to be an essential aspect.

THE SAFETY OF OUR EMPLOYEES

Our Quality Management Department is constantly examining the departments and therefore looking to improve and communicate risk assessments to our employees.

All employees are provided with occupational health and safety training, which includes both general and risk-specific training, such as training for hazardous tasks or circumstances.

The LOGO tape group has its own Company Doctor, who is responsible for the wellbeing of our workforce.

OUR PANDEMIC RESPONSE

DURING THE PANDEMIC

- Hygiene concept
- Social distancing between colleagues
- Providing our employees with face masks
- Reducing face to face business meetings in favour of online meetings
- Placing desks with a distance of 1,5 m
- Decreasing face-to-face consumer-meetings
- Providing our workforce with home-Test kits for the detection of Corona virus SARS-CoV2
- Home office: Implementing flexible and remote work options
- In the workplace, processes were re-organised to reduce employee contact.
- Changes in shifts and breaks were closely managed and planned.
- Promoting vaccinations for our employees, family and friends through our Company doctor

OUR PRODUCTION MEASURES

The pandemic of Covid-19, has had a substantial influence on global production and commercial operations. Resulting in numerous obstacles relating to import/export, identifying vulnerabilities within the business; making us therefore diversify our supply base, hold safety stock and invest more time in R+D processes / automation.

03 **ENVIRONMENT**

OUR COMMITMENT

Sustainability
Environmental balance
Sustainable innovation

Sustainable production

ENVIRONMENT
OUR COMMITMENT

SUSTAINABILITY

At the LOGO tape group, we care about the environment. It is for this reason our commercial performance is represented in the long-term viability of our efforts, throughout all areas of operational areas of the company. This corresponds to a firm policy that is environmentally sustainable, socially equitable, and economically efficient. Through this, the LOGO tape group can develop innovative and efficient adhesive solutions that look towards viable resources, materials and therefore protect the environment whilst always upholding human rights.

All of our sustainable goals and actions are regularly audited by an external independent institution.

The LOGO tape group certifications are listed below:

- Quality: DIN EN ISO 9001
- Environment: DIN EN ISO 14001
- Energy: DIN EN ISO 50001
- Systematic safety: ILO-OSH 2001

We strive to minimise the environmental impact of our operations. Hence, we have set ourselves a number of environmental goals including; energy conservation, efficiency management of resources, raw material usage, wastage avoidance and recycling. The LOGO tape group constantly works to optimise not just having a responsible supply chain, but also to develop sustainable products.

As specialists in the co-extrusion of multilayer films and the self-adhesive tape industry, the mission of the LOGO tape group is not only to develop innovative product solutions, but also to meet strict quality requirements and thus take responsibility for our environment and our employees.

The quality-environmental management and the energy requirements of our company are continuously checked and improved through regular audits. Our commitment to sustainability also includes recyclability, renewable raw materials and responsible procurement.

ENVIRONMENTAL BALANCE

TOTAL ENERGY CONSUMPTION / CO2 equivalent

		2019	2020	2021

The consolidation scope is related to the own Industrial sites in Germany

TOTAL WATER CONSUMPTION

Water is not used in our products and manufacturing processes. It is only used for sanitary purposes.

Therefore we decided not to evaluate the water consumption.

SUSTAINABLE INNOVATION

As a specialist in self-adhesive tapes and in order to improve the protection of our environment, we feel a responsibility to make a positive contribution through sustainable products and to give our environment back a green footprint.

The LOGO tape GREEN SERIES is the sustainable product line from our product portfolio and consists of:

- Self-adhesive tapes
- Handles (handylift)
- Water activated tape (WAT)

LOGO tape
GREEN SERIES 

GREEN MEASURES

PLANTED TREES - FLENSBURG

In Flensburg, a fruit tree meadow has been created on an area of approx. 800m².

PLANTED AREAS - FLENSBURG

A total of approx. 800 square meters have been planted with different shrubs/ground covers.

PLANTED TREES - HARRISLEE

Trees have been planted on an area of approx. 200m² in Harrislee.

PLANTED AREAS - HARRISLEE

A total of approx. 500 square meters have been planted with different shrubs/ground covers

SUSTAINABLE MOBILITY

E-CAR

Our journey to work is an environmentally conscious one. The LOGO tape group is actively involved in the sustainability field and is making improvements not just for its employees and customers, but also for its community. In order to be able to make a significant contribution to environmental and climate protection, we decided to turn our CO2 emissions into green electricity.

As we know, electric cars are better for the environment and our health, by having no harmful emissions. Therefore, our business car fleet has been changing and reinventing itself to electric cars since 2019.

In addition, we are constantly adding charge stations for electric vehicles to our parking spaces.

E-BIKE LEASING

As another sustainable initiative from our company, our employees have the opportunity to lease an Electric bike for their commute to work.

SUSTAINABLE PRODUCTION

The LOGO tape group has made some investments in order to increase the degree of automation within the company such as the installation of additional packaging robots - and the expansion of automation of the packaging process after the production process.

These automated procedures have had a significant influence on our staff allowing them to focus completely on the primary tasks of their role, resulting in a more focused and dedicated workforce. Our staff now have more time for R+D processes and leadership allowing them to focus on the job that matters most to the company, the sustainable innovation of the products.

The use of automated technologies has increased the productivity of our employees and as a result, the efficiency of our production lines. The efficient use of automated technology yields a high return on investment for our company, more than covering the system's cost.

PRODUCT RESPONSIBILITY

RESPONSIBILITY

Responsibility in the Supply Chain
Product safety

PRODUCT
RESPONSIBILITY
**RESPONSIBILITY
IN THE SUPPLY CHAIN**

THE SUPPLY CHAIN

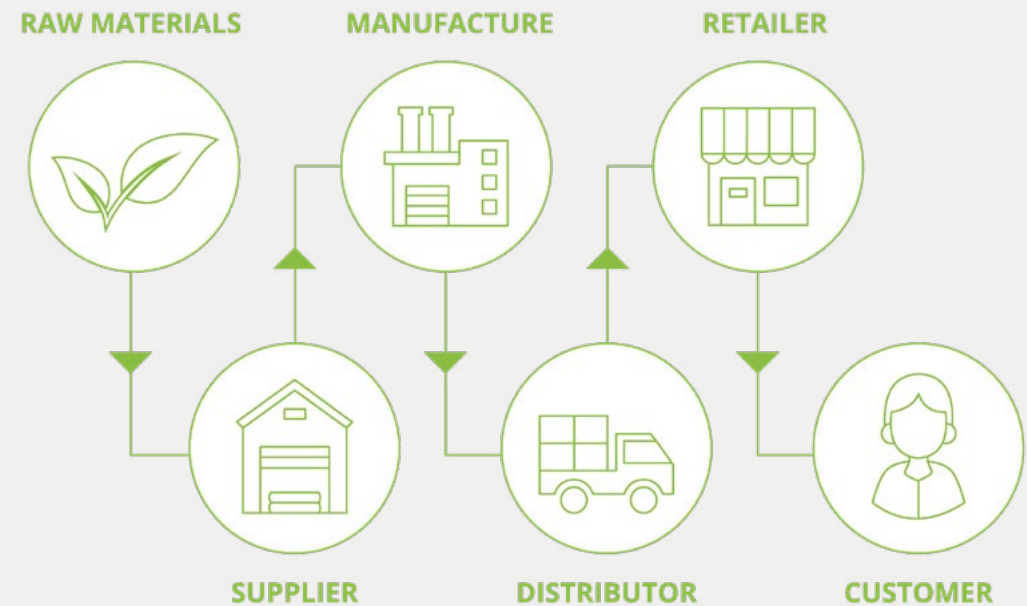

Supplier management is essential not just for the company, but also for the quality of our products and as a result our commercial performance. In order to manufacture our final products, we require raw materials and chemicals which we buy from a variety of sources throughout the world.

The LOGO tape group main procurement markets are Europe.

In order to meet our customer's growing needs, from product design to the acquisition of sustainable pre-materials, a new approach is required. The LOGO tape group carefully selects its suppliers based on four main criteria: quality, safety and the environment, economic viability, and on-time delivery. Among other things, the goals of the 2030 Agenda for Sustainable Development from the United Nations and the Paris Climate Agreement form the framework for a sustainable procurement strategy.

Furthermore, our suppliers must ensure agreement and sign a Supplier Agreement of Sustainability. Which requires, their own supply chain to also meet with the following aspects: Employee health and safety conditions, ensuring fair wages and fair working conditions, avoiding corruption and promoting responsibility in its supply chain. The LOGO tape group expects all of its suppliers to comply with this.

In order to improve our own corporate supply chain and processes, our manufacturing locations are annually submitted to an audit. These evaluations cover aspects such as; the presence of ISO 9001 management systems in our company, the number of complaints, response times, the completeness of regulatory documentation, and safety and environmental aspects, such as accidents and environmental incidents, economic sustainability of the supply and delivery conditions.

PRODUCT SAFETY

The LOGO tape groups main goal is to provide our consumers with goods that are environmentally friendly and safe for daily use as well as the entire life-cycle of the product.

Internal audits are conducted on a regular basis to guarantee that the company manufacture products that meet all safety and quality standards. The analysis is carried out using qualitative criteria that all products must meet. Therefore, our management system ensures the highest quality and safety of our products.

In the matter of our product responsibility, we as a company ensure that our products are completely safe throughout their full life cycle. Furthermore, in order to reduce our environmental effect, we continuously strive to im-

prove our product design process, through yearly examinations and continuously ongoing Research and Development processes, that help us in our efforts to create and deliver new sustainable and innovative solutions, as well as improve our current offerings.

SOCIAL COMMITMENT

long-term success. That is the main reason we engage in a variety of initiatives to help our communities and regions.

We understand that the success of our company is truly connected to the success of the individuals that surround us. Therefore, we know how important unity is for our

Exercise enhances health and promotes good body awareness. Consequently, we feel it is important for us as a business, to provide the young regional talents with the op-

portunity to compete at a high level within their sport.

We support the following regionally based organizations:

The LOGO tape group is a business partner of the Flensburger Handball team, the SG Flensburg-Handewitt.

Additionally, we are a business partner of the regional soccer team in Flensburg, the SC Weiche Flensburg.

Offizieller Businesspartner

SOCIAL COMMITMENT

Taking up social responsibility willingly is a component of the LOGO tape group business concept, which is deeply rooted in our company principles and values. Therefore, we see it as a necessity to make a constructive contribution to society through our commitment as a company. As a result, it is important to us to support and promote social and sustainable initiatives in our region.

For us, sustainability entails taking on social responsibility within our region. We recognise our responsibility to conserve our natural habitat and are dedicated to building and encouraging positive connections in our community, whilst contributing and adding value to local growth.

Instead of receiving Christmas gifts from our customers, we encourage them to donate to a charitable organisation that help local families in need.

LOGO tape is a “guardian angel company” and thus helps young families from the region through the Non-Profit Organisation “Schutzengel” in Flensburg.

A grayscale photograph of industrial machinery, likely a tape manufacturing plant. The image is split diagonally from the top-left to the bottom-right. The left side shows various rollers, gears, and belts in motion. The right side is a plain white background. The text is overlaid on the left side.
